

Linshare

linshare.org

Open-Source alternative to Google drive

Private and secure file sharing and cloud storage

Fully compliant with GDPR. Made and hosted in the EU 

4 product pillars of LinShare

Open source

LinShare is a 100% open source with its code available on GitHub. Security experts can verify the code that protects your data

Your privacy matters

Linshare is GDPR compliant. All your data is stored on secure servers in the EU. So you are protected from the Cloud act and the patriot act

Trusted by governments

We are the trusted data management product used by the European parliament, The French Ministry of Economy and Finance, LCL bank and many more

#GoodTechforGood

We contribute to the UN Sustainable Development Goals. We are going carbon neutral by 2025 and will remove all historical emissions by 2030

Our Customers

LinShare makes your data management painless!

Data control

Manage your user's data, with fully customizable settings to control your business network on your own terms.

Notifications

Receive email notifications when your shared files are downloaded or opened.

Activity log

Visualize event threads on your files: shared date, download date, file deletion and more!

Email sharing plugin

Share big files on email! Use the LinShare plugin to share attachments of unlimited size within your email.

Collaboration

Share files among your teams, save contact lists, create deposits to allow your external contacts to upload files, and more.

Upload request

Empower internal and guest users to upload files on a specific project in one place with or without a LinShare account.

Secured uploads

Use passwords to protect your files while sharing. Only collaborators who know the password will be able to download or open your files.

Amazing support

Enjoy peace of mind knowing you are in good hands with our support team! Our experts are at your disposal in case you have a problem.
